- Allow people to access some aspects of the website without an account
- Set up a project link feature so you can share a private project with people

User Stories:

As a {user role}, I want {goal} [so that {reason}]

- [1](L) As a user I would like to make a profile so that I can organize and upload my projects
- [1](XL) As a User I would like to create projects and be able to have a customized feed so that other users are able to view my projects
- [2](L) As a user I would like to have a customized feed so that I will be able to view projects that I am interested in.
- [3](XL) As a user I would want to be given suggestions because I want to find projects that I are related to projects that I usually view.
- [2](XL) As a user I would want to be able to connect to LinkedIn/Github and other platforms so that I can integrate my projects across platforms.
- [1](XL)As a user I would want to be able to upload different types of files(image,video,document,etc.) so that I am not limited to what I can share with the world.
- [4](XL)As a user I would want to create partnerships with other projects so that connections between projects can lead to innovation and further development of those projects.

- [2](L)As a user I would want to create collaborators with other users so that connections between projects can lead to innovation and further development of those projects.
- [2](M) As a user I would like to be able to receive/give comments so I can get feedback on my project as well as be able to leave feedback on other projects
- [4](M) As a user I would like to share my project in order to gain a larger following and promote my project
- [5](XL) As a user I would like to have my comments summarized to get a quick overview of what people think of my project so that I could more easily get through a large quantity of comments and find what is more useful to me.
- [3](S) As a user I would like to make projects public or private so I can keep certain projects invisible to other people until ready to be viewed.
- [2](S) As a user I would like to have categories associated with projects so that I could filter them to more easily find projects that are of interest to me.
- [4](M) As a visitor to the site I would like be able to view public projects, so that I find new projects that may be of interest to me.
- [4](S) As a user I would like to be able to set up a project link feature so you can share a private project with people (as a portfolio as an example).

User Stories	Story Points
Sprint 1	
- (L) As a user I would like to make a profile so that I can organize and upload my projects	1
- (L)As a user I would like to create projects so that I could manage and post documentation/updates on my project	1
- (XL)As a user I would want to be able to upload different types of files(image,video,document,etc.) so that I am not limited to what I can share with the world.	1
- (S) As a user I would like to have categories associated with projects so that I could filter them to more easily find projects that are of interest to me.	2
- (L)As a user I would want to create collaborators with other users so that connections between projects can lead to innovation and further development of those projects.	2

- As a user I would like to be able to have a customized feed so that other users are able to view my projects	2
Sprint 2	
- (L) As a user I would like to have a customized feed so that I will be able to view projects that I am interested in.	2
- (XL) As a user I would want to be able to connect to LinkedIn/Github and other platforms so that I can integrate my projects across platforms.	2
- (S) As a user I would like to make projects public or private so I can keep certain projects invisible to other people until ready to be viewed.	3
- (M) As a user I would like to be able to receive/give comments so I can get feedback on my project as well as be able to leave feedback on other projects	2
